#### 43 Hoboes Caught On Coast Line Train.

Waycross, Ga., April 21.—Forty-three hoboes from one train is a record that will probably stand in Georgia for a long time. It was made on an Atlantic Coast Line special operated from Jacksonville to Lexington, Ky., and officers had completed their raid by the time the train reached Waycross. Three special agents, O. T. Hill, and Mitch Thomas, from Waycross, and G. S. Godbold, of Savannah, figured in the raids made on the cars of the special. They had with them 60 pairs of handcuffs, and worked a car at a time.

The special was composed of race track followers and their equipment, and feed for horses carried along in palace horse cars. In one way pile eight hoboes were caught, while others were pulled from barrels and boxes in various parts of the train.

By a previous order, the officers were instructed to liberate the men if fares were collected. The hoboes all forked across the cash fares charged on passenger trains between Jacksonville and Waycross for the privilege of getting rid of a pair of handcuffs and getting off the train at Waycross. Had no fares been paid all the men caught, negroes and whites, would have been turned over to the Ware county authorities at Waycross for trial in the city court on charges of stealing rides.

#### FOLEY KIDNEY PILLS FOR BACKACHE, KIDNEYS AND BLADDER

War on Harem Skirts. Tallahassee, Fla., April 19.—Declaring that any woman who would wear a harem skirt in public should be sent to jail, Representative Tidwell today introduced a bill in the legislature making it a misdemeanor for a woman to wear either of these garbs in public. Amid much laughter the measure was referred to the committee on Indian affairs and war records.

Dentists Can't Write Whiskey Prescriptions.

Greensboro, N. C., April 20.—In ruling that J. O. Roach, a prominent dentist of Madison, N. C., was guilty of a violation of the state prohibition laws, Recorder Hastings, of the city court of Winston-Salem, N. C., today held that a dentist was neither a practicing physician nor a surgeon, and therefore not eligible to write prescriptions for whiskey. A fine of \$25 and costs was imposed.

Under the prohibition laws of North Carolina the sale of whiskey is placed entirely in the hands of physicians and the ruling of Recorder Hastings stops dentists from enjoying a privilege that has until now been practiced without question.

It is said the State Dental Association will prepare a test case in order that the supreme court of the state may more clearly define their rights.

Congress does not wish to cut

the difficulty, why not double the

year.

### A New Money-Maker.

The vegetable season is now  
approaching. There are vast quan-  
tities of vegetables going to waste  
annually in each community be-  
cause of over-supply. The local  
demand is limited, and the quantity  
is rarely sufficient to make ship-  
ment to market. Therefore much  
stuff is allowed to rot in the garden  
which could be profitably utilized  
by neighborhood co-operation.

Experiments in a small way  
have heretofore been made with small  
canneries in some communities.  
One gentleman a short distance  
from Statesboro has been able to  
put up large quantities of tomatoes  
for himself and his neighbors by  
the use of a small outfit. This  
gentleman has found a market in  
Statesboro for his entire product at  
a price considerably in advance of  
the ordinary commercial product.  
There is demand for more of this  
class of goods.

A correspondent of the *Inland  
Farmer* suggests that the women  
of rural communities organize can-  
ning clubs.

In proof of the money-making  
possibilities of the home canner, the  
correspondent cites the follow-  
ing instances:

"A South Carolina farmer put  
up 1,000 cans of tomatoes which he  
sold for 80 cents a dozen, and his  
wife and two children, a girl of six  
and a boy of eleven, did all the  
work and never lost a single can."

"A Tennessee farmer put up 10,  
000 cans in a season. He used to  
haul his tomatoes ten miles to a  
canning factory and get \$6 a load.  
Now he cans his own tomatoes,  
and the same amount which he  
sold for \$6 will fill twenty cases of  
cans (40 dozen), which, even at  
the lowest price—85 cents a dozen  
—would leave him a nice profit."

"Another Tennessee man and his  
two sons in 21 days put up 8,000  
cans, which were marketed for  
\$600. After canning his own crop  
he canned for his neighbors at five  
cents a can, many of them coming  
eight to ten miles to have him  
do the canning for them."

The home canner is another  
facility that modern progress has  
found for making farm life at-  
tractive and profitable. No farm  
home should deny itself the unde-  
niable benefits a cannery will bring.

### PUBLIC SENTIMENT AT FAULT

SORROW AND SUFFERING CAUSED BY  
IDEA OF PERSONAL BRAVERY.  
(Savannah News).

In his talk with a representative  
of the *Morning News* Mr. C. E.  
Lee, who shot and killed L. H.  
Hilton in Sylvania, referring to  
the tragedy, said that because of it  
he was the sorriest man in the  
state; that he knew that he would  
lose everything; that his family  
would be ruined and that he had  
a wife and three babies dependent  
upon him, the oldest only three  
years old, and that they have no  
one to look out for them but him.  
That is a sad picture and touches  
every heart.

The family of the victim of the  
tragedy is also in deep distress,  
sorrowing for husband and father  
so suddenly taken from them, and  
Sylvania has lost her foremost citi-  
zen, and all because of a public  
sentiment that personal difficulties  
must be settled with a shotgun or  
pistol. Isn't this public sentiment  
wrong? Inexorable as it seems to  
be, particularly in the rural dis-  
tricts, cannot it be changed, and  
changed promptly? Ought not all  
the forces that influence public sen-  
timent be arrayed against it? By  
the Lee-Hilton tragedy two fami-  
lies are plunged in the depths of  
grief, and one of them sees ahead  
a long criminal trial and a struggle  
with poverty.

The principals in the tragedy  
took no thought of the trouble,  
sorrow and suffering they might  
bring upon those near and dear to  
them by resorting to violence in  
the settlement of their differences.

They thought only of themselves,  
of what the people of their com-  
munity might say if either showed  
fear of the other or made a move to  
bring about a settlement of their  
trouble by peaceful means.

No man who has a family de-  
pendent upon him or who is of  
great value to his community has a  
right to risk his life to gratify his  
personal feelings or to satisfy a  
wrong public sentiment. It re-  
quires more real courage to defy  
such a sentiment and do what com-  
mon sense dictates than to face  
death. But as long as the senti-  
ment exists we shall have tragedies  
and their attendant aftermath of  
suffering and sorrow. A great ad-  
vance will have been made when  
it will not be thought to be nec-  
essary to use deadly weapons in the  
settlement of personal difficulties,  
and every effort should be made to  
bring about a public sentiment that  
will condemn the use of the pistol  
or shotgun in quarrels—quarrels of  
a character common to every com-  
munity.

tem, leaving Thomaston south-  
bound for New York, picked up a  
Plymouth Rock hen as it was speed-  
ing out of that town, trainmen re-

freeman supposed the hen had been  
killed until they reached the rock  
quarry at Plymouth, known as  
Plymouth Rock, two miles south.  
Then a brakeman shouted "Ply-  
mouth!" The Plymouth Rock  
alighted from the pilot of the loco-  
motive, cackling lustily as it fled.  
Amazed bystanders examined  
the forward part of the engine.  
They found an egg lodged at the  
base of the cowcatcher in the  
framework. One farmer remark-  
ed: "The hen left her care any-

How To Stop  
Stubborn Cough  
We don't mean just stop the ir-  
ritation in your throat—but cure the  
underlying cause.  
Cough syrups cannot do this. It  
takes a constitutional tonic body  
builder to do the work properly—and  
cure you to stay cured. Vinol  
is the remedy you need.

HERE IS PROOF  
Mrs. Minnie Osgood, of Glens Falls,  
N. Y., writes: "After trying several rem-  
edies for a bad cough and cold without  
benefit, I was asked to try Vinol. It  
worked like magic. It cured my cold  
and cough and I gained in health and  
strength. I consider Vinol the most  
wonderful tonic and invigorator I ever  
saw."

If we cannot stop that cough  
with VINOL—our delicious cold  
liver and iron tonic—which is made  
without oil—we will not charge  
you a cent for the medicine you  
buy. This seems like a pretty fair  
proposition—and ought to be ac-  
cepted. Don't you think so? With  
this understanding we ask you to  
try a bottle of VINOL.

### MUST PUT BUTTONS IN FRONT

WOMEN NOT ENTITLED TO VOTE UNLESS  
THEY SHOW GOOD SENSE.

Washington, April 28.—In a lec-  
ture before the Episcopal Church  
congress, which is meeting here  
and which set aside a session for  
discussion of "votes for women,"  
the Rev. Dr. Cyrus Townsend  
Brady declared that "women can  
never get suffrage as long as their  
cothes button up the back."

"When women haven't any more  
sense than to have dresses that but-  
ton up the back," declared the di-  
vine, "they certainly haven't  
enough sense to vote. I tell you  
buttons up the back are foes not  
only to common sense, but even to  
liberty. Recently I had a tailor  
make me a vest which should have  
buttoned in front. Instead he put  
the buttons on the back. From that  
moment I became a slave and lost  
my liberty."

"The same objections apply to  
other ridiculous customs of women.  
There is the hobble skirt—a gar-  
ment which looks as if it might  
have been born of a wedlock be-  
tween the Spanish inquisition and  
an insane asylum."

"Only a few days ago a couple  
in Kansas City came to me to be  
married. The bride was dressed in  
the most hobbling of hobbles."

"I told the bride to kneel down,  
whereupon she blushing informed  
me to do so would be a physical  
impossibility."

"But it is an ecclesiastical nec-  
essity," I said, and told her if she  
really wanted to be married the  
physical would have to give way.  
Finally she agreed to try. The  
physical gave way. I won't say  
whether anything else did or not."
